

BEP

Run your BEP with clarity, compliance, and control.

What Sets Us Apart

Purpose-built for BEP

Manage operators, facilities, agreements, and equipment in one place—no spreadsheets, no guesswork.

Audit-ready by design

Point-in-time records and instant RSA-15 reports keep you confident and compliant.

Operational workflows to run the business

From work orders and service authorizations to monthly profit & loss reporting, BEP keeps your program moving.

Site visits & field tracking

Plan, record, and follow up on site visits with checklists, notes, photos, and corrective actions.

Dashboards you can act on

See operator performance, site health, and agreement status by role—act faster, decide smarter.

Search. Find. Fix.

Locate operators, facilities, equipment, or agreements in seconds to resolve issues before they escalate.

Why programs choose inFormed BEP

- Built for BEP—not repurposed from something else
- Fewer clicks, fewer errors, faster renewals
- Instant audit confidence with point-in-time reporting
- Cleaner handoffs between staff, vendors, and sites
- Scales with your program—no re-platforming required

Out-of-the-box capabilities

Operator Setup & Lifecycle

Get operators ready, compliant, and productive, then keep them that way.

Facility & Site Management

Linked relationships, status changes, and progression tracking—always current.

Agreement Management

Real-time status with alerts for expirations and amendments; performance tied to terms.

Audit-Ready Reporting

Instant, accurate RSA-15 and program reports at any moment.

Dashboards & Search

Role-tailored views and fast retrieval for better decisions.

GovCloud Security

Federal-grade cloud hosting and access controls.
